

Participant Application

Everyone is welcome at our church, in a spirit of cooperation. You don't need to be a Christian. We hope this is a rich environment for learning about what it means to be a Christian, offering many opportunities to ask questions. Our desire is to help you grow in relationship with God and each other. Once you accept Jesus as your lord and Saviour you are adopted into the family of God, a heavenly membership that no-one can take away from you, were each one is equal in Christ Jesus. In today's litigious climate it is possible for someone to bring lawsuit against the church to force it to perform ungodly acts using accusations of discrimination. Therefore our church uses the definition of a church participant to protect us from this possibility. Only a church participant has certain rights, including voting at church business meetings, the possibility to hold leadership positions, and the use church property for special events (for example, a wedding). These rights are provided impartially to all who meet the participant requirements. By becoming a participant, you are identifying yourself with this church, and joining with its goals and purposes. Being a participant of this church cannot replace personal commitment to Jesus Christ nor will no help you get to heaven, nor will it make you "better". We consider it an honor to have you as an active participant. By filling out and signing this Church participant application, you are agreeing to the following.
